REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The implant C1762 was not paid please review the bill."

Amount in Dispute: \$3,466.30

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "The requestor seeks additional reimbursement for the mesh implant but has not shown that more is due beyond the \$230.17 paid by Texas Mutual. The requestor seeks payment for code C1762. However, the pass-through status of that code expired in 2002 and has been assigned a status "B." Thus, no payment is due."

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the fee guidelines for outpatient acute care hospital services.
3. 28 Texas Administrative Code §134.203 sets out the fee guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 225 – The submitted documentation does not support the service being billed
 - 16 – Claim/service lacks information or has submission/billing error(s).
 - 97 – The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated
 - 618 – The value of this procedure is packaged into the payment of other services performed on the same date of service.

- 193 – Original payment decision is being maintained

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code J7620, date of service February 1, 2014, has a status indicator of M, which denotes items and services not paid under OPPS. Reimbursement is not recommended.
 - Procedure code J7620, date of service February 2, 2014, has a status indicator of M, which denotes items and services not paid under OPPS. Reimbursement is not recommended.
 - Procedure code C1713 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code C1762 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code C1781 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 36415 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 80048 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 85007 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 85027 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 85610 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 85730 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 49505 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0154, which, per OPPS Addendum A, has a payment rate of \$2,599.64. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,559.78. This amount multiplied by the annual wage index for this facility of 0.9657 yields an adjusted labor-related amount of \$1,506.28. The non-labor related portion is 40% of the APC rate or \$1,039.86. The sum of the labor and non-labor related amounts is \$2,546.14. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual

fixed-dollar threshold of \$2,900, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. Per the OPPS Facility-Specific Impacts file, CMS lists the cost-to-charge ratio for this provider as 0.301. This ratio multiplied by the billed charge of \$8,118.00 yields a cost of \$2,443.52. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services based on the percentage of the total APC payment. The APC payment for these services of \$2,546.14 divided by the sum of all APC payments is 99.96%. The sum of all packaged costs is \$4,897.19. The allocated portion of packaged costs is \$4,895.11. This amount added to the service cost yields a total cost of \$7,338.63. The cost of these services exceeds the annual fixed-dollar threshold of \$2,900. The amount by which the cost exceeds 1.75 times the OPPS payment is \$2,882.88. 50% of this amount is \$1,441.44. The total Medicare facility specific reimbursement amount for this line, including outlier payment, is \$3,987.58. This amount multiplied by 200% yields a MAR of \$7,975.16.

- Procedure code C9290 has a status indicator of G, which denotes pass-through drugs and biologicals paid under OPPS; separate APC payment includes pass-through amount. These services are classified under APC 9290, which, per OPPS Addendum A, has a payment rate of \$1.10. This amount multiplied by 60% yields an unadjusted labor-related amount of \$0.66. This amount multiplied by the annual wage index for this facility of 0.9657 yields an adjusted labor-related amount of \$0.64. The non-labor related portion is 40% of the APC rate or \$0.44. The sum of the labor and non-labor related amounts is \$1.08. Per 42 Code of Federal Regulations §419.43(f) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, drugs, biologicals, and items and services paid at charges adjusted to cost are not eligible for outlier payments. The total Medicare facility specific reimbursement amount for this line is \$1.08. This amount multiplied by 200% yields a MAR of \$2.16.
 - Procedure code J1650 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1885 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2001 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2250 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J3010 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1200, date of service February 1, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1650, date of service February 1, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1200, date of service February 2, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1650, date of service February 2, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code Q0163, date of service February 3, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
3. The total allowable reimbursement for the services in dispute is \$7,977.32. The amount previously paid by the insurance carrier is \$4,204.34. The requestor is seeking additional reimbursement in the amount of \$3,466.30. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$3,466.30.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$3,466.30, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
